Widebeam "Drift Away"
47x9ft Traditional stern

Builder: Tig Tek Ltd

Year: 2004

Engine: Barrus Shire 4 cylinder 40hp

Batteries: 1x Starter, 3 x Leisure batteries

Berths: Fixed double at stern with underside storage.

Boat Safety Certificate: May 2029

Electrics: 12v power throughout, 240v power supplied shoreline hook up, 1600w Sterling inverter, 2 x 80w solar panels and Victron galvanic transformer.

Heating: Hamlet Hardy 4kw solid fuel stove and Alde gas heater feeding radiators and calorifier.

Water Heating: Calorifier heated by the engine, Alde gas heater.

Lining: Painted and varnished ply throughout, ceiling is plastic panelling. Spray foam insulation.

Flooring: Laminate flooring throughout.

Comments: Drift Away is a well presented boat that has been used for continuous cruising by the current owner. The 9ft width make the boat easier to cruise day to day but still offers fantastic living space inside.

£64,000
